Linda and Sonya,

As we have looked in the SPRE area and the Examiner's office and due to exigency of the situation of Reissues counted and not mailed, we will likely need to reconstruct --- 09/023146. Neither Clay nor William have the case. I will discuss with you on Monday on your return.

Thanks

Matthew

Thanks. For the lost one, but sure to talk to Linda about recording an official search and then starting reconstruction as soon as possible - due to the urgency of these cases.

2818 and 2823 completed inspection. Most are awaiting action by the SPRE. One is apparently lost. Not in examiner's or SPRE's possession. Need to check on Stark's and get Luu's corrected.
